## **Health and Medical Standards**

Participation in BISA requires intense physical activity outdoors. It is mandatory that all students consult their doctor to confirm that they will be able to endure the demands of working outdoors for a full day, including using hand tools, crouching, bending, sitting, working on hands and knees, hiking in difficult terrain and woodlands, and carrying loads of equipment. In addition, international travel and being far away from home can be challenging. PLEASE READ the standards of health and safety elsewhere on the [culturaterritorio.org](http://culturaterritorio.org) website.

I will provide certification from a medical doctor that my mental and physical health can meet the demands of the field school.

I will have an up-to-date Tetanus vaccination prior to my participation in the field school.

I will disclose all physical and mental health conditions that may participation in the field school.

I will have an active international medical insurance policy for the duration of my stay.

Medical Conditions

Please describe any physical or mental health conditions here. This information will remain CONFIDENTIAL.

Dietary Needs

Please describe all dietary needs and special requests, such as food allergies, medical conditions, and lifestyle choices.
